## A MEMBER'S VOICE

### Marty Knight

How about that snowstorm! I hope that people aren't too hard on our faithful meteorologists. I had a little fun at their expense Friday morning. I had myself all psyched up to work from home on a snow day and not have to make a trip to the office, but alas I woke up to a yard with no snow. I'm sure that Ed Buckner and his peers felt a little sheepish when the massive amounts of snow that they predicted failed to materialize.

In Genesis 6-7 we have the familiar account of Noah and the Great Flood. Imagine what it must have been like for Noah to have built that huge ark in anticipation of a flood. I wonder about the ridicule that he endured from his fellow man. They must have thought that this man was crazy! Just as I thought the weathermen were crazy for thinking that 12 inches of snow could fall and accumulate when the temperatures were above freezing.

When you get down to the heart of the matter, we aren't much different today. We're here telling people that "the day of the Lord is coming." Our job is to warn them that "the heavens will pass away with a great noise, and the elements will burn with fervent heat." (2 Peter 3:10) As we go about this task, there are those in our community and our world who think that we are fools. They have a false sense of security in the fact that they believe they are in control. We may be the object of ridicule and scorn in like manner as Noah.

I'm told that 18 inches of snow accumulated in the tiny community of Fox where our good brother, Scott Blake, is the postmaster. Up in Stone County, the people know that Ed Buckner was right! A massive snowstorm DID occur! There will come a day when those around us KNOW that we were right. Let's do all that we can to convince them that judgment is coming and there is yet time for them to "be holy in conduct." (2 Peter 3:11)
